

# Design Review for Historic Properties

SMC 17D.040  
SCC Title1-1.48

Administered by the City-County Office  
of Historic Preservation Since 1985

The City of Spokane adopted Ordinance C-26353 and the County of Spokane adopted Ordinance 82 0038. These identical ordinances provide that the City-County Historic Landmarks Commission is responsible for the stewardship of the historic and architecturally significant properties in the City of Spokane, unincorporated areas of the County, and, upon request, incorporated towns. The ordinances require review by the Spokane City-County Landmarks Commission of any proposed changes to properties designed as historic landmarks or districts on the Spokane Register of Historic Places. These review requirements may also be specified in granting of a face easement.

## What is Design Review?

Owners of properties listed on the Spokane Register of Historic Places have signed a document stating that they will follow Management Standards outlined within the Management Agreement. They also agree to obtain a [Certificate of Appropriateness](#) for any action affecting use, exterior appearance, demolition, or new construction attached to the designated historic structure.

### The Certificate

The [Certificate of Appropriateness](#) is an official notice of approval issued by the Administrative commission (Landmarks Commission), or its designee (Historic Preservation Officer), charged with the jurisdiction for permitting or denying the appropriateness of proposed changes or additions to historic structures.

### Basis for Review

In order to determine compatibility as objectively as possible, the following [Standards for Rehabilitation](#) have become the established criteria for Design Review. These broad guidelines developed by the Technical Preservation Services Division of the United States Department of the Interior, serve as the basis for rehabilitation design review, except for neighborhoods which have adopted specific guidelines.

#### 1. Change-of-Use Review

Every reasonable effort shall be made to provide a compatible use for a property, which requires minimal alteration of the building, structure, or site and its environment. The Landmarks Commission will consider the impact of the proposed use on the historical or architectural importance of the structure or historic district.

#### 2. New Structures or Alterations in Historic Districts

Alterations to a historic landmark or building, or the construction of new structures in an historic district, should be architecturally compatible with the character of the landmark, building, or neighboring structures within the district. The Landmarks Commission shall determine the compatibility of proposals for alterations and new construction.

The contemporary design of new structures within a district are not necessarily precluded. The design elements of contemporary proposals will be judged according to their sensitivity to the surrounding structures in terms of height, bulk, shape and configuration, as well as placement on the property in relation to patterns or spacing. Approval will be based upon review of plans and elevations of the new structure.

For new multi-family or non-residential structures, the Landmarks Commission will require site plans drawn to scale, showing the location of structures, drives, surface material of walks and parking area, and proposed landscaping.

#### 3. Signs, Lighting and Other Appurtenances

Signs, exterior lighting and other appurtenances such as walls, fences, awnings and landscaping, shall be visually compatible with the traditional architectural character of the historic structure.

#### 6. Demolition Review

For procedures regarding demolition of historic landmarks, or structures in historic districts, see [Section 17D.040.220](#) of the Ordinance.

## Type of Work to be Reviewed and by Whom

Type of Work	No Review	Staff Review	Commission Review
<b>Exterior Renovation</b> If visible from the street			
Awning – change of color		X	
Awning – change of style		X	
Awning- new			X
Paint with Same Color	X		
Paint unpainted brick, stucco or stone			X
Paint with Non-historic color			X
Paint With New Historic Color		X	
Landscaping/Gardening	X

Install exterior fire exits			X
Minor work not approved by Staff			X
<b>New Construction</b>			
Build New Addition			X
Build New Porch			X
Build New Deck			X
Move a Building			X

## The Process

A Certificate of Appropriateness application can be obtained through the Historic Preservation Office (HPO).

**Fees:** \$75.00 (Free to local historic districts) Staff review fee; \$25. Fee must be paid when the Certificate of Appropriateness is filed.

**Appeals:** Appeals are made to the Hearing Examiner. [SMC 17D.040.160.](#)

**Non-Compliance:** If tax incentives have been utilized for the property, the incentives are in jeopardy, and fines and penalties can be assessed. If tax incentives have not been used, the Landmarks Commission can recommend that the property be removed from the Spokane Register of Historic Places.

**Benefits:** Design review ensures that the historic character and appearance of properties is preserved, and that the uniqueness of Spokane's past continues to be represented in the future.

**Restrictions:** Work must occur exactly according to approved plans. **ANY** revisions, omissions, or additions to plans must be reviewed by the Landmarks Commission prior to execution, or a permit will not be issued for the proposed work.

**Note: Normal maintenance or repair does NOT require design review if no changes are made to the appearance of the building.**
