*** PROPERTY HISTORY: (Expand on the history of the barn/property such as use, builder, architect, family stories and memories, etc.. add additional pages if necessary)**

The only thing we know for sure is that it was built pre-1950. My dad (Jack Hopkins) purchased the adjoining farm in 1953 and the Alberthal barn was old and run down even at that point. My dad then purchased the Alberthal farm in 1960 and repaired the barn enough that he could store hay in it and grain in the old granary. My dad ran cattle on the Alberthal farm and raised hay. Now that the property is ours, we still rent the pasture land out for cattle. The only elderly farmer still alive around here who remembers the Alberthal farm believes that the barn was built by one Siemus Riddle.

Please provide current photos of nominated property (interior and exterior (all four sides)) and a map indicating the location of property. Digital images are preferred (please provide disc) or print on photographic paper.

Only typed forms accepted. Please send an electronic copy of the completed form.
