**\* PROPERTY HISTORY: (Expand on the history of the barn/property such as use, builder, architect, family stories and memories, etc.. add additional pages if necessary)**

The nominated barn was built as a replacement barn to a structure that burned down due to loose hay that combusted. The barn housed the horse teams used to farm wheat on the Philleo farm in the northern Palouse region. Horse teams consisted of 4 horses per team, 3 teams, with 3 lead horses. (Total of 15 to pull the combine). All horses were fed and cared for in the main thoroughfare of the barn where three draft horse stalls on each side still exist.

This barn is still used to house farm animals, such as 2 horses, 4 steers, 2 goats, 6 ducks, and 2 rabbits. All of these animals are owned by our children and shown at fairs in the 4-H category. It has two stalls in the front, 1 used to house a horse, the other for small animals such as rabbits and ducks. The rear of the barn is open to the pasture and is used for shelter for the steers and goats.

The loft is also used to store 60# grass hay bales that are used to feed our animals and also sold to horse owners. 30-40 ton of hay is stored there from time to time. We do not have an exact date of erection of this barn, but our farm has never been sold and has always been handed down to the next generation.

We are the fifth generation on the farm.

If you need assistance completing the form, please contact Michael Houser, State Architectural Historian, at 360-586-3076 or Michael.houser@dahp.wa.gov.

Homesteader: Doc Philleo  
 Son: Edwin Philleo  
 Granddaughter: Phylliss Philleo (McGourin)  
 Great Grandson : John M. McGourin  
 Current Owner & Great Great Grandson: Patrick McGourin.

The main problem for our barn is that the foundation framing the building has failed. It is a very large issue.

**\* Please provide current photos of nominated property (interior and exterior (all four sides)) and a map indicating the location of property. Digital images are preferred (please provide disc) or print on photographic paper.**
