*** PROPERTY HISTORY: (Expand on the history of the barn/property such as use, original owner, builder, architect, family stories and memories, etc.. add additional pages if necessary)**

This farm was first homesteaded in the late 1880's. Most of the current structures on the farm today including the house, the barn, and the machine shed were built at that same time. The farm was used as a dairy farm by the original builders until 1953 when the Christensen family purchased it. Since then the Christensen family has used the farm to grow wheat, alfalfa, hay, and other grain crops which continues to this day. The barn is used to store dry hay and as an indoor shelter for two horses, misc. chickens, and rabbits, it is truly a "farm barn" in the purist sense of the word. In 1998 a local magazine recognized the Christensen farm as one that represented the soul of our little prairie and printed a picture of the farm in one of its articles (see attached article & photo). In 2005 Cornerbooth Productions (a Spokane TV commercial production company) chose to rent the farm for several days to use it as a backdrop for a 3 rivers television commercial.

Please provide current photos of nominated property (interior and exterior (all four sides)) and a map indicating the location of property in relationship to major roads. Digital images are preferred (please provide disc) or print on photographic paper.

Only typed forms are accepted. Please send an electronic copy of the completed form.

If you need assistance completing the form, please contact Michael Houser, State Architectural Historian, at 360-586-3076 or Michael.houser@dahp.wa.gov.
