*** PROPERTY HISTORY:** (Expand on the history of the barn/property such as use, original owner, builder, architect, family stories and memories, etc.. add additional pages if necessary)

This barn was built over a waterway--yes the water flows right under the barn! It is two stories and housed many teams of horses and possibly some workers that worked on the farm. The original farm (land and buildings) are still one working operation. We are the third family to own/farm and live on this property. James Hays built the barn and the very historical home on this property (which is under renovation currently). The barn was designed with a bridge so the teams could drive through the barn and unload hay without turning around.

Please provide current photos of nominated property (interior and exterior (all four sides)) and a map indicating the location of property in relationship to major roads. Digital images are preferred (please provide disc) or print on photographic paper.

Only typed forms are accepted. Please send an electronic copy of the completed form.

If you need assistance completing the form, please contact Michael Houser, State Architectural Historian, at 360-586-3076 or Michael.houser@dahp.wa.gov.
